

BUSINESS SERVICES AND TECHNOLOGIES OOD is an SAP services and solutions provider, SAP partner, primary engaged with Implementation of SAP business information systems, IT Infrastructure services, Information Security solutions, Project Management. We are working on own implementation projects in Bulgaria and around the world: almost all countries in Europa ,USA and Latin America

We are looking for experienced Linux Engineers to join our team in Sofia. You will become part of international team (Germany and China), managed by German project management and will work for some of the largest global customers. **SAP knowledge not required**

Job Description

- Together with the team, you are actively involved in the conception and further development of the existing cloud landscape. We live an agile way of working (according to SCRUM).
- You optimize operating systems and central services (DNS, LDAP, Mail, Samba, ...).
- In addition, you are responsible for performance analysis (Nagios, Zabbix, SAR) as well as troubleshooting and error analysis in Linux operating systems (SuSE Linux Enterprise).
- You automate through scripting (bash, python, perl).
- Finally, you oversee technical projects and take over the evaluation and introduction of new, innovative technologies and documentation and knowledge transfer.

Requirements

- You have experience in the virtualization of server landscapes (Xen, VMware) as well as knowledge in the implementation and operation of central services.
- You already have knowledge of automation (e.g. boss) and scripting (e.g. Perl, Bash).
- Ideally, you have knowledge of various hardware providers (e.g. HP, Lenovo, Dell, Cisco).
- Regular use in the late shift (no night shift) is not a challenge for you?
- You are characterized by an analytical and solution-oriented way of thinking and working as well as teamwork.
- You have good to very good knowledge of English, both spoken and written.
- You have a strong affinity for Linux and open source solutions.
- You have some experience in the administration of Linux operating systems
- Experience with SCRUM and / or change management would be great.

BST offers:

- Very competitive remuneration package
- Additional private health insurance.
- To work in a friendly, motivated and achievement-oriented team of professionals.
- Work from our offices in Sofia

If you are interested in becoming part of our team, please do not hesitate to send us your resume in English to jobs@bst.bg . We thank all interested applicants, but will only contact the short-listed ones. All applications will be treated with strict confidentiality.
